

## Civil PE Exam Review Course

**Begins Monday, August 9<sup>th</sup>**

If you know someone who is taking the exam on October 22, 2021, please pass this information along. If you would like to sit in on some of the sessions as a refresher for PDHs, you may register for a single session (or more) also.

The PE Civil exam review course will be held at the Lipscomb University Fields Engineering Center and will be available via a videoconferencing link.

As we have in the past, the course will be taught by Professional Engineers and based on the ***Civil Engineering Reference Manual*** (Lindeburg 15<sup>th</sup> edition). It will focus on the “breadth” (morning) portion of the exam and will include the general topics covered during the morning part of the exam. Seismic and land surveying will **not** be covered, as they are not covered on the morning exam. Sessions include Water Resources, Geotechnical, Structural, Construction and Transportation.

The cost will be \$350 per person for members and \$550 for non-members.
